## THE OBJECTIVE

A position in teaching Computer Science where I can utilize my deep understanding of programming languages, data structures, algorithms and software design patterns. The ability to explain complex technical concepts in a clear and concise manner is an important skill for both software engineers and Computer Science educators. As a software engineer, I have developed expertise in breaking down complex problems into smaller, more manageable pieces. Similarly, as a computer science educator, I will be able to present technical concepts in a way that is accessible and engaging to students by integrating IT in teaching.

Badge earned 3/3/2023

## ACHIEVEMENTS

Kendriya Vidyalaya Sangathan

Scored 151/180 In PGT  
Computer Science 2023

Toluna India Pvt Ltd - Sep 2012

Employee of the month

## SOCIAL MEDIA

 [linkedin.com/in/techieishita](https://www.linkedin.com/in/techieishita)

## EDUCATION

Bachelor of Technology (2007-2011) in Computer Science & Engineering

Accurate Institute of Management & Technology,  
Greater NOIDA, affiliated to GBTU

## WORK EXPERIENCE

Freelancer from 2020 to 2022 - Software Developer

- Created a quiz webapp to promote formative assessment ([www.techieishita.in/quiz1](http://www.techieishita.in/quiz1)).
- Created a physics calculator GUI app in Python's tkinter library.
- Created a Telegram chatbot in Python that calculates the score obtained in the KVS exam held in 2023.
- Created a professional website for a consulting firm ([www.raytechassociates.com](http://www.raytechassociates.com)) and an informative website for a school ([www.raumavidyalaya.in](http://www.raumavidyalaya.in)).

Aon Hewitt, Gurugram, 2013 - Software Engineer

- Served as a programmer in Conconfirm (survey design platform) creating Employee Engagement survey sites to gather feedback on clients' employees via survey links.
- Emailing survey sites to clients' employees and programming response rate sites where clients can track the health of a survey by tracking response rates in real time, with drill-down detailed reports to pinpoint key invitees who may need a reminder to respond to the survey.
- Provided clean and validated data to client post survey closure date.
- Created excel macros to automate tasks and reduce turnaround time.

Toluna India Pvt Ltd, Gurugram, 2011 - Survey Programmer

- Served as a programmer in Conconfirm (survey design platform) creating Market Research survey sites to gather feedback of client's products or services from audience around the globe.
- Worked on projects which have high level complexity (examples of complex logic are Partial/Full de-rotation and Manual Rotation/De-rotation, Complex Quota, priority/least count Logic, Flash Implementation, SQL, Segmentation Algorithm, Java Script and Redirection/Reentry)
- Participated in client kick-off calls to learn about client requirements.

## PASSIONS

Piano

Novels

Chess

## APPRECIATION

"We appreciate your ownership, commitment and dedication shown in managing "HAP" projects independently. We equally understand that "HAP" projects are not easy to work on. Keep up the good work"  
- S. Rangarajan, Manager
